About Hygiene Shield Coviclean

Coviclean Surface Disinfectant is a pH neutral surface active disinfectant. It contains no aldehydes, active chlorine or alkalies.

It is biodegradable and Australian-Made. Suitable for use in food areas, no rinsing required - avoid direct contact with food. Not to be used on medical devices.

The product can be used as a spray and wipe cleaner or "spray and leave" disinfectant.

Cleaning (General Purpose):

Apply Hygiene Shield Coviclean directly to surface. Use disposable towel or clean cloth to wipe surface and remove soiling. Repeat as necessary.

To Disinfect:

If surface is dirty, first preclean with Hygiene Shield Coviclean following cleaning directions. To disinfect, apply Hygiene Shield Coviclean ensuring whole surface is wet and allow contact time as per the below table – allow to air dry.

USAGE GUIDE

| ORGANISM | CONDITIONS | MIN CONTACT TIME |
|--|-----------------|------------------|
| Gram positive & gram negative bacteria | clean and dirty | 5 minutes |
| Candida albicans (yeasts) | clean and dirty | 15 minutes |
| Coronavirus including | | |
| SARS-CoV-2 (COVID-19) | clean | 30 seconds |
| SARS-CoV-2 (COVID-19) | dirty | 5 minutes |
| Vaccinia virus | clean | 5 minutes |
